## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 34-45, 60-66, 68-69, 84 and 91-95 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification doesn't provide support for the axis of rotation of the hinge not being co-planar with the molded plastic exostructure. In figure 35, it isn't clear how the hinge is rotated. The exostructure appears to be one integral part, along the entire support. It would appear that the bands (600) and the adjacent band (not numbered) must be detachable from the support in order for the hinges (608, 610) to move.

Claims 34-45, 60-66, 68-69, 84 and 91-95 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 34-45, 60-66, 68-69, 84 and 91-95 it isn't clear how the hinge (axis or rotation) isn't co-planar with exostructure.

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the axis or rotation of the hinge not being co-planar with the exostructure, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
